

Ultrasound & ECG gels

Blucia Ultrasound gel (5kG) is used as a coupling medium in all ultrasound procedures to replace air between the transducer and the patient's skin, as ultrasound waves have trouble in traveling through air. The gel helps reduce friction and also helps transmit the ultrasound waves. The intensity and depth of the penetrating ultrasound waves can be controlled by the therapist via the machine's settings and it will depend on the specific injury .

BLUCIA Gel (5kG) is water based conductive gel with high conductivity properties. BLUCIA ECG Gel formulated with high viscosity & is specifically intended to reduce resistance between skin electrodes in most Electrocardiogram Processes. It spreads easily and evenly & is an efficient coupling medium for electro medical transmission. It is also designed to transmit weak electrical signals in a highly precise manner. The high conductivity remains constant even during long procedures.

Blucia Ultrasound gel (250ML) is used as a coupling medium in all ultrasound procedures to replace air between the transducer and the patient's skin, as ultrasound waves have trouble in traveling through air. The gel helps reduce friction and also helps transmit the ultrasound waves. The intensity and depth of the penetrating ultrasound waves can be controlled by the therapist via the machine's settings and it will depend on the specific injury .

Accupresure-Micro needle stimulator

Features:

1. Automatically find points, intelligent and easy.
2. Good for blood circulation.
3. Portable and easy to use.
4. Adjusting the sensitivity of points detection according to your skin type and skin condition.
5. The user-friendly design, easy to operate.
6. Audio Tips.
7. We use lithium batteries that can be recharged.
8. Treatment probe can be replaced.

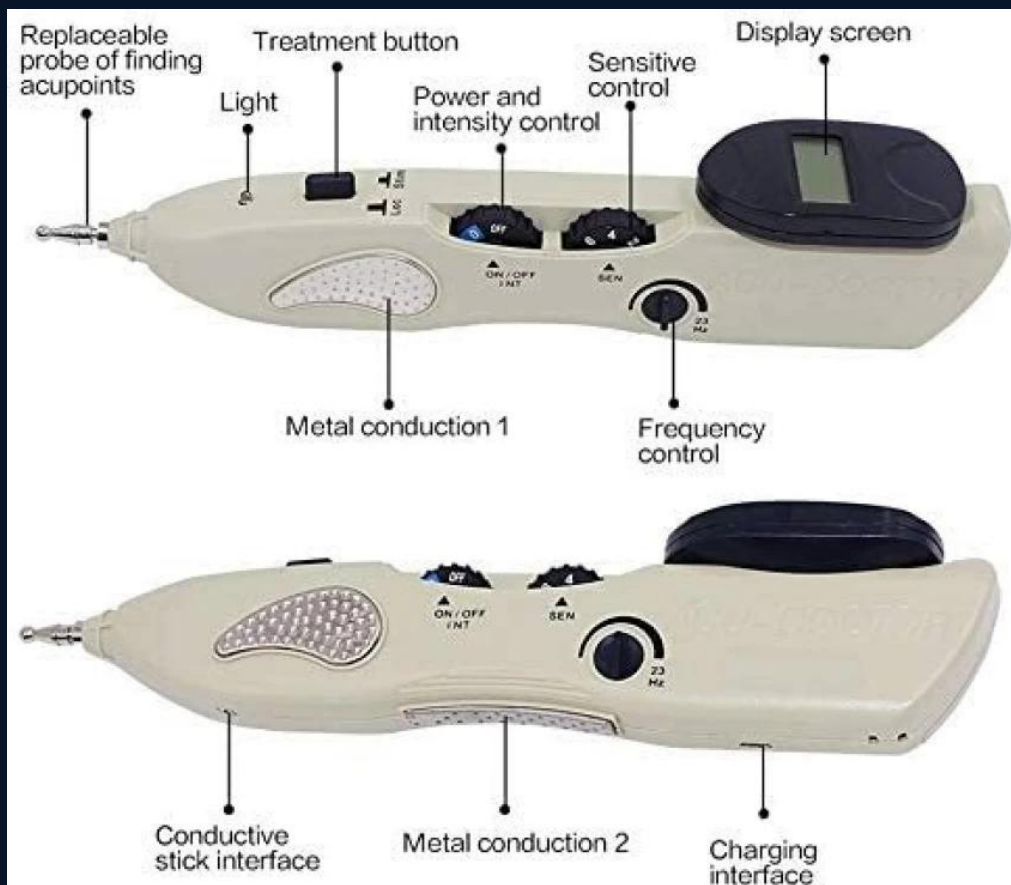

Specifications:

Item Type: Digital Electronic Acupuncture Pen

Quantity: 1pc

Size: Approx.27.5 x 11.5 x 5cm / 10.8 x 4.5 x 2inch

Weight: Approx.513g

Vaccup cupping

- Cupping set of 6
- Cupping set of 12
- Cupping set of 24

Rotary vaccup cupping set

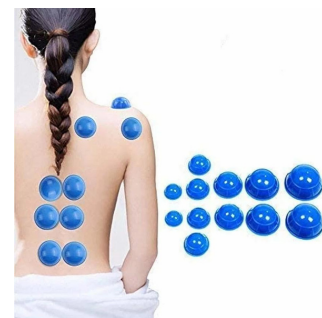

- 1, the ignition need to use safe rotary piston exhaust method replaces the traditional ignition exhaust method, no burns of, safe, greatly convenient for people to use, applies to the hospital, and is suitable for the family.
- 2, easy to operate, Negative pressure can be adjusted Tank negative pressure can be adjusted according to the patient's pain tolerance and disease free, more simple and convenient to use and to understand while see, is quick to learn, and can grasp skilled.
- 3, tanks transparent For observation tanks manufactured nontoxic transparent engineering plastics, easy observation tank skin, easy to master the cupping.

Fire glass cupping set

- Glass Fire Cup massage is a type of massage based on the local impact on human body with rarefied air. This method of therapy through the use of decreased pressure is a type of vacuum therapy, widely used nowadays for treating a variety of human diseases. Cup massage is performed with medical cups, which have vacuum-sucking, thermo-chemical and reflectory impact on the skin, hypoderm, muscles and nerves, biologically active zones and meridians of the human body. Application of cup massage: Cup massage can be performed on almost all areas of human body. Most often cup massage is used to massage back, chest and limbs

MASSAGERS

Massage Gun is a powerful deep tissue massager to relieve stiffness, soreness, and pain in your body. It helps accelerate warm-up and recovery by improving flexibility and range of motion. This device has a powerful PMDC 775 motor with QuietWave Technology and 6 adjustment speed levels ranging from 1800 - 3000 RPM.

3 in 1 Dolphin Body Massager - Voltage: 220V AC - Frequency: 50-60 Hz - Power: Electricity - Wire Length: 1 Meter - Weight: 900 Gram you will get: 1 x Massage Hammer, 3 x Massage Head

Thrive Massager Beige is designed to combine a vertical motion with an irregular rotary motion which raises massaging effects. It helps to improve the immunity level and blood circulation in the body. Moreover, it facilitates comfort in back pain, neck pain, Osteoarthritis, and Arthritis. It helps to reduce wrinkles and fat deposits including cellulite.

portable massager is crafted from high-quality materials, making it lightweight and easy to carry. It is rechargeable, ensuring a long battery life that allows for 5-8 hours of use with just 1/2 an hour of charging. Its convenience and effectiveness make it ideal for soothing muscles on the go!

The Pain and Discomfort Relief, and enjoy a comfortable massage after a long day. This knee massager has 3 vibration modes, from low, and high to automated switching. Three heating modes, from the low setting of 105°F, medium of 122°F, to the high heating level of up to 140°F, and all with the extra benefit of switchable infrared and laser lighting.
